Women United is a group of like-minded women who believe that collective giving and volunteer service can make a substantial impact on reducing poverty in our community.

EMERGING LEADERS SOCIETY

MISSION UNITED

Every day approximately 20 American veterans are lost to suicide, nearly 50,000 veterans are homeless, and almost one-third of post 9-11 veterans have a service—connected disability. Veterans can face challenges transitioning from active duty, and too many find themselves homeless, jobless, or unable to access treatment for substance abuse, brain injury, or other physical and mental health issues.

United Way is doing something about this through Mission United.

The Mission United coordinate care network brings together the best public, private and non-profit organizations throughout our region. These providers offer a range of programs that are intended to serve our military community and their families. Powered by the software provider, UniteUs, this platform allows organizations to create and receive specific referrals and provide the ability to track 100% of a client's outcome.
